THE SOVEREIGN RULE OF SOUTH CAROLINA Views of Southern Laws, Life, and Hospitality

Written in Charleston, S. C., by F. C. Adams

Written in Charleston, S. C., by F. C. Adams.

THE above work forms a beautiful 12mo volume of over 300 pages, small pica. Price—in paper, 50 cents; muslin, 75 cents. The usual discount to the Trade. Orders solicited. Copies sent by mail, prepaid, any distance under 3,000 miles, for 61 cents.

The above work is a delineation of the scenes and incidents connected with the imprisonment, in 1852 of Manuel Pereira, steward of the British brig Jan son, in the jail of Charleston, S. C.

The following notice of this work is copied from the National Bra of February 17:

"The above is the title of a work now in press founded upon that infamous statute of South Carolina by which her citisens claim a right to imprison colored soumers, of all nations, and even those cast upon their shores in distress. We have perused the book in advance of its publication, and find that it gives a lifelike picture of Pereira, the vessel in which he sailed, the storms she encountered, and her wrecked condition when brought into the port of Charleston, S. C.; to gether with the imprisonment of Pereira, several seamen belonging to the New England States, and two French seamen; the prison regimen, character of the Charleston police, and the mendacity of certain officials, who make the law a medium of peculation. The work is replete with incidents of Southern life and character, pointing Southerners to the things that call for correction at their own hands, with a force that cannot be mistaken. The work is written by one who has taken a promiuent part in the affairs of the South, and cannot fail to interest alike the general reader, commercial man, and philanthropist."

ries to be published under the general title of Rollo's Tour in Europe.

Extract from the Preface:

"The books are intended to be books of instruction, rather than of mere amusement; and, in perusing them, the reader may feel assured that all the information which they contain, not only in respect to the countries visited, and to the customs, usages, and modes of life that are described, but also in regard to the general character of the incidents and adventures that the young travellers meet with, is in most strict accordance with fact. The main design of the narrative is thus the communication of useful knowledge; and everything which they contain, except what is strictly personal, in relation to the actors in the story, may be depended upon as exactly and scrupulously true." April 15, 1853. CHARLES FRODSHAM. PROSPECTUS OF THE PROHIBITIONIST.

"If any State deems the retail and internal traffic nardent spirits injurious to its citisens, and calculated to produce inleness, vice, or debauchery, I see othing in the Constitution of the United States to revent it from regulating or restraining the traffic, or from prohibiting it altogether, if it thinks proper."

On or before the 1st of January, 1854, the Executive Committee of the New York State Temperance Society will issue the first number of a Monthly Temperance Journal, under the title of "Tus Pao

nals, or to that of an ordinary duodecime volume of 150 pages.

Its Object.—To advocate the Cause of Temperance generally, and especially the Legislative Prohibition of the Traffic in Intoxicating Beverages, to prepare the minds of the masses for such Prohibition, by showing its expediency and Necessity, and to secure, by all the influence it may legitimately exert, the vigorous enforcement of Prohibitory Laws when obtained.

my Watches in the United States of America.

April 15, 1853. CHARLES FRODSHAM.

The undersigned, having been appointed sole Agent in the United States for the sale of Charles Frodsham's Improved Timekeepers, would respectfully call public attention to his extensive and valuable stock of Compensated Chronometer Watches, made by Charles Frodsham, and styled his "New Series." In the Watches of the new series, Mr. Frodsham has succeeded—by a more perfect method of compensation, a more correct adjustment in isochronism, and an entirely new and poculiar construction of the train, by which more power is obtained without increase of sise—in producing timekeepers of wonderful and unrivalled accuracy. The great importance of the improved Watches is a perfect regularity of time, under every variety of climate, motion, and position. So perfect are the adjustments, that the most violent exercise—such as horseback riding, jumping, &c.—produces on them no sensible effect. They are therefore peculiarly adapted to railroad purposes.

The scientific French critic, Mons. Borsendorf, in his review of the Great London Exhibition of 1851, styles the contribution of Mr. Charles Frodsham as "bearing the stamp of peculiar merit, and as being the flower of the English school."

The British Government have awarded Messrs. Arnold and Charles Frodsham the sum of £3,170, for the excellence of the principle of their timekeepers. One of Mr. Frodsham's correspondents writes as follows:

London. April 25, 1852. vigorous enforcement of Prohibitory Laws when obtained.

Its Field.—Dealing with general principles, with arguments alike applicable to every community where the traffic exists and with facts illustrative of these arguments and principles, the paper will be National in its scope, in its purpose, and, we trust, it will be National in its circulation and influence. Such is our aim and expectation. We desire to see the Principle of Prohibition established in State after State, till it becomes the recognised policy of the Nation. It is our ambition to bear a part in this great work, and to this end The Prohibitionsties is established, not as the organ of a society merely, but of a Great Repormatorry Movement.

Its Necessity.—The existing Temperance Journals have little, if any, circulation outside of the Temperance Ranks. Their price almost necessarily restricts them to the friends of the cause. The Prohibitionist is designed for circulation (instead of tracts) among the indifferent and the hostile. For this purpose it is put at a price so low as to enable the friends of Temperance in every school district, by combined action and at an inconsiderable expense, to place a copy in each family that will consent to receive it.

Its Price.—One copy for one year — \$0.50 LOBDON, April 26, 1852.

SIE: I have much pleasure in giving in account of the Gold Compensation Lever Watch. No. 3,325, you have made for me, and in which I expressly stipulated that it should maintain a uniform rate of going under every variety of motion and climate. This it has done in a most remarkable manner; its rate of going for the first six months was five seconds per month, and in the next six months it changed its rate a little faster, vix: eight seconds per month, and at the end of 365 days it was found to be fast of Greenwich mean time one minute and fifteen seconds. Though I was not led by any previous promise to expect such performance, yet I believe it is only the usual character of your improved watches, which you term your "new series."

I remain, sir, yours, respectfully,

These Reprints have now been in successful operation in this country for twenty years, and their circulation is constantly on the increase, notwithstanding the competition they encounter from American periodicals of a similar class, and of numerous Eclectic and Magazines made up of selections from foreign periodicals. This fact shows clearly the high estimation in which they are held by the intelligent reading public, and affords a guarantee that they are established on a firm basis, and will be continued without interruption.

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. Blackwood, still under the masterly guidance of Christopher North, main tains its ancient celebrity, and is at this time unusually attractive, from the serial works of Bulwer and other literary notables, written for that Magasine, and first appearing in its columns both in Great Britair and in the United States. Such works as "The Cax tons" and "My New Novel," both by Bulwer; "My Peninsular Modal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Black wood, after it has been issued by Messre. Such a Paper is demanded by the Farming Community.

Such a Paper is demanded by the Farming
Community.

The publishers confidently believe that the agriculturists of this country are becoming too much awake to the demands of their own calling to be longer satisfied with the slow monthly issues of a paper professedly devoted to their interests, or to trust alone to the irresponsible extracts in a "farmer's column," so popular just now in papers chiefly devoted to business, politics, or literature; and they look for the united support of all the intelligent farmers of this country in their continued effort to furnish a weekly paper of a high and reliable character, which shall be progressive, and at the same time cautious and conservative in all its teachings.

Essentially an Agricultural Paper.

The Agriculturist will not depart from its legitimate sphere to catch popular favor by lumbering up its pages, with the silly, fictitious literature, and light, miscellaneous matter of the day; it has a higher aim; and a small part only of its space will be devoted to matters not immediately pertaining to the great business of Agriculture. The household as well as the out-door work of the farm will receive a due share of attention. The humbugs and nostrums affoat in the community will be tried by reliable scientific rules, and their worthlessness exposed. It is the aim of the publishers to keep this paper under the guidance of those who will make it a standard work, which shall communicate to its readers only that which is safe and reliable.

An Independent Journal.

that which is safe and reliable.

An Independent Journal.

The American Agriculturist stands upon its own merits; and the truthfulness, zeal, and ability, which it brings to the support of the interests of the farmer. It is untrammeled by any collateral business connections whatever; nor is it the organ of any clique, or the puffing machine of any man or thing. Thoroughly independent in all points, its ample pages are studiously given alone to the support and improvement of the great agricultural class.

Editorial Department.

The American Agriculturist is under the editorial The American Agriculturist is under the editorial supervision of Mr. A. B. Allen, its principal editor for the past ten years, and Mr. Orange Judd, A. M., a thoroughly practical farmer and agricultural chemist.

They will be assisted by Prof. Nash, who has been New England, and is now Agricultural Professor of Amherst College; Rev. Wm. Clift, widely known as a pleasing and instructive writer on gardening and other departments of practical agriculture, and, in addition to these, a number of other eminent agri-

cultural writers.

All the editors are men practically experienced in their profession, each of whom can handle the Plow as well as the Pen.
